- Spanish (Native)
- English (B1)

EDUCATION

- **B.Eng. in Computer Science**
Instituto Tecnológico de Tijuana
2016-2021

ABOUT ME

Passionate about web development, with experience in building applications from scratch to deployment. Specialized in JavaScript technologies for both front-end and back-end, with skills in responsive design, software architecture, and server management. Capable of handling complete projects with an efficient and scalable approach.

WORK EXPERIENCE

- **IT MANAGER**

Probien Bienes Exclusivos
2022 - Present

Focused on both administrative and technical aspects, developing digital solutions to optimize the company's operations.

Key Projects:

✔ Probien Public Portal – Real estate web platform with over 500 static pages, SEO optimization, and responsive design. Built with Next.js, Payload CMS, Tailwind CSS, and Meilisearch.

✔ Probien CRM – Internal system with over 18 modules for managing properties, clients, and operations. Developed using Next.js, Supabase, Prisma ORM, and Meilisearch.

💰 Impact: Reduced operational costs by 200,000 MXN annually, improving efficiency and data centralization.
